Automotive  
furnishing solutions

## Who we are

**The Global Group of Companies is one of the largest multinational manufacturers, marketers, and distributors of office furniture and related products worldwide. At the heart of Global is our ability to deliver great value by combining modern design, dependable quality and exceptional service.**

With more than 13 years of automotive industry experience successfully servicing major automotive brands, we continue to meet and exceed the expectations of manufacturer image programs, individual dealerships and automotive groups across North America.

## More than just furniture

**We're the only office furniture manufacturer to have a dedicated department for our automotive customers, providing you with an unmatched level of in-house resources, support and expertise.**

By sharing our knowledge we can help establish best practices and efficiencies into manufacturer furniture standards. We also leverage our experience to help automotive groups and dealers navigate their image programs from every angle including: specifications, service, limitations, customization and more. Our value added services also include access to online image program guidelines in addition to design and technical (CAD) support ensuring you get the most from your investment.

## Building your brand experience

**Creating the right environment for your dealerships is important - it's the first tangible interaction people have with your brand.**

Furniture is an essential aspect of that experience and as such, plays a vital role in both customer and employee attraction and retention. Furniture is an investment, and our role is to maximize your return on that investment.

Transparency  
across the  
board

**We have more than 25 showrooms across North America so you can actually “kick the tires” on your furniture options at a local showroom before you buy.**

All our product pricing is published, making it clear, transparent and standardized – even across manufacturer programs – so you know up-front what your costs will be with no guessing or surprises.

## One-stop shop

**You're in the business of selling cars, not specifying furniture – we understand that. We make the process of furnishing your space simple and efficient, helping minimize your downtime during a build or renovation so you can get back to what you do best.**

Our comprehensive product offering includes everything you need – welcome desks for the showroom, benching and desks for the sales staff, workstations and task chairs for finance, lounge seating for service waiting areas – so you don't have to navigate multiple suppliers. We don't employ a one-size-fits-all solution. Working collaboratively with you and your team, we help interpret your image program to create solutions that fit your space, timeline and budget, while meeting brand compliance requirements.

## Service when and where you need it

**With a network of over 2,000 dealers across North America, we're able to service you wherever you are, whenever you need us – it's like roadside assistance for your furniture.**

We also offer an In Stock Program with over 300 top selling products ready for delivery within 48 hours of order placement. With products available in our most popular textiles and finishes, choosing the right product to fit your space is easy. Whether you need a chair, a bank of files or a complete workstation for your back-office areas, we can solve your day-to-day problems without any headaches or downtime.

## Customization is standard

**We understand that while dealerships may look the same, no two are identical. Every facility has unique needs based on their space and location.**

At Global, customization is standard. This capability is bolstered by the strength of our manufacturing and distribution network – the largest in North America. As a result, we can modify standard products or create custom products to suit your unique needs within standard timeframes and costs. This allows you to get up and running quickly or seamlessly implement moves, add-ons or changes over time, while better managing timing and cost.

## A single phone call away

**Our dedicated automotive department means you have a defined point of contact and greater accountability.**

A single phone call is all that's needed to ensure any concerns or issues you have are dealt with in a timely and efficient manner. From concept through to completion and beyond, we'll be there to support you.
