

# A MESSAGE FROM

At LKQ, the health and safety of our team members, customers and communities where we live and serve is of utmost importance to us. We are following the guidelines of the Centers for Disease Control (CDC) and other regulatory authorities, and we have the resources in place to respond quickly as needed to any of our locations, including our warehouses, salvage yards, distribution centers and our corporate support centers.

Currently, all LKQ and Keystone locations in the United States of America and Canada remain open. In times of emergency, gas stations, auto supply, auto repair and related facilities are typically considered essential businesses. If our customers are open, helping individuals repair their vehicles, we will continue to operate and deliver the parts they need.

We remain committed to serving our customers and are confident we are implementing precautionary measures to promote the health and safety of all involved. We look forward to continuing to serve you as we navigate these difficult times.
